Castle Hill residents to benefit from new Jaycar store

Jaycar Electronics is celebrating its 30th birthday with the opening of a new store in Castle Hill on Saturday, 25 June.

The opening of the Castle Hill store in this landmark year will mark the company's 73rd across Australia and New Zealand.

Jaycar Electronics plans to hire six employees, with hopes to expand as the business grows. Store Manager, Peter Bauer is from the Hill's District, and brings with him over 15 years' retail experience. Most recently, his experience has been within the Jaycar family at another store. Peter invites the community to stop in for the store opening and take advantage of June Stocktake Clearance specials.

The medium-sized open plan store has been fitted with easy to find stock and interactive displays to reflect the distinctive Jaycar Electronics brand. The store will open seven days a week and features plenty of parking for customers.

Castle Hill's Area Manager David Burns said, "Providing the Hills District residents easy access to our products in their own backyard is a fitting way for Jaycar to celebrate its 30th birthday. Our products are popular in the area and the new store will enable us to interact with our customers and share our knowledge and ideas."

A huge range of products are available at Jaycar Electronics, including quirky gadgets, electronics components, car and home audio, power products, automotive accessories as well as alternative energy, security, computer and outdoor products.

Jaycar's new store is located at 2/2 Anella Ave, Corner of Anella Ave and Victoria Ave, Castle Hill, NSW 2154. To contact the store please call 02 9634 4470 or visit www.jaycar.com.au.
